

THE PANIC OF MISUSED TERMS

**EDUCATING PSYCHOLOGY
YOU CAN USE!!!**

GRAPHS WORK!!!
You can use **SEEABLE DATA** to help your students. Just watch them during the day and then remember to write down and make a graph up to 8 hours later! It makes a great presentation!

**GET RID OF BAD BEHAVIOR WITH
NEGATIVE REINFORCEMENT**
You can use **firm consequences** to get rid of bad behaviors! Remember to use **stern tones**, use **time outs**, and get rid of bad behavior quickly... that's **NEGATIVE REINFORCEMENT!** (and it **WORKS!**)

NEVER STOP TALKING
Functional **COMMUNICATION** means that students learn by hearing. The more you talk at them, the more **FUNCTIONAL** it gets.

HAPPY ABA HALLOWEEN
